One stop for
 integrated healthcare

Welcome To South Community

Almost 80 million Americans suffer from some type of mental illness* resulting in nearly every family having a member needing to access mental health services. However, the good news is that most people who seek treatment can experience relief from their symptoms.

Since 1974, South Community has been your home for community healthcare providing treatment to members of our community with mental illness. Our expanded services provide many families with more complete and comprehensive care to address both mind...and body.

Our highly skilled, compassionate staff delivers effective treatments that restore hope, promote resiliency and improve quality of life.

Integrated Approach to Wellness

We value patient-centered “whole person” care focusing on the extensive needs of our clients, working closely with them as partners in their personal health goals.

*National Institute of Health.

“I know that many agencies talk about having a recovery focus, but the staff here truly implements it.”

-satisfied client

Mental Health

South Community is a local leader in care with an array of programs to help meet our clients’ needs that arise throughout the lifespan.

On the road to recovery sooner

Primary Care

We provide clients the ability to receive both their mental and physical healthcare in a coordinated manner and with a positive, personal approach.

- ✓ Acute care office visits
- ✓ Physicals for school/work/sports
- ✓ Most laboratory services
- ✓ Pharmacy on site
- ✓ Family planning services
- ✓ Health Screenings and care coordination
- ✓ Most Immunizations
- ✓ STD screening
- ✓ EKG testing
- ✓ TB testing
- ✓ Referrals for specialty care

Substance Abuse

South Community strives to instill hope, value and worth for our clients on their recovery journey.

- ✓ Trained in Integrated Dual Disordered Treatment (IDDT), an evidence-based model for adults who have these co-occurring issues of substance abuse and serious mental illness.
- ✓ Dually certified for alcohol and drug and mental health care for adults, adolescents and youth.
